Econometrics Reading Group

Harvard University: Summer 2020

Organized by Kelsey Pukelis

1 Applied Schedule

Date	Topic	Presenter 1	Presenter 2	Presenter 3
May 28	Publication bias	Suproteem Sarkar		
June 4	Decision theory & experimental design	Michael Holcomb	Rafael Proenca	
June 11	Bayesian computation	Anthony Bald	Jeff Gortmaker	
June 18	Bunching	Kelsey Pukelis	Mike Droste	
June 25	Spatial analyses	Paichen Li	Ross Mattheis	
July 2	Networks	Raul Duarte	Stephanie Kestelman	
July 9	AKM models	Rafael Proenca	Leonardo D'Amico	
July 16	Two-way fixed effects	Maxim Alekseev		
July 23	Bartik instruments	Tianwang Liu	Sophia Mo	Gregor Shubert
July 30	Judge IV	Alex Albright	Chika Okafor	Emma Rackstraw
August 6	Bridging structural & reduced form	Hanbin Yang	Jeff Gortmaker	
August 13	Semiparametric inference & machine learning	Kevin Chen		
August 20	Finite sample	Ross Mattheis	Stephanie Kestelman	
August 27	Measurement error	Johnny Tang		

2 Theory Schedule

Date	Topic	Presenter 1	Presenter 2
June 1	Inference for partial identification	Chris Walker	
June 15	Shape restrictions	Hanbin Yang	Songyuan Ding
June 29	Statistical decision theory: Part 1	Ashesh	
July 13	Inference for weak instrumental variables	Chris Walker	
July 27	Statistical decision theory: Part 2	Ashesh	
August 10	Semiparametric inference and machine learning	Kevin Chen
